

# stand-alone music-on-hold adapter

for use with all remote download and other digital on-hold players

Works with virtually all multi-line analog and KSU-less phones

One unit adds music-on-hold capability on 1 to 4 lines and up to 50 telephone extensions

**Analog Phone Adapter**  
Unit works with any digital player to provide on-hold audio capability to standard analog and KSU-less phone systems with up to four lines

Accepts any audio from any audio source. Designed specifically to work with remote downloadable music-on-hold players.

**Meet TEHMA** "Telephone Extension Hold Music Activator"  
Just place a TEHMA on each phone extension for true, universal-hold-button activation! Works with virtually all corded phones, even cordless phones when used in conjunction with a headset. TEHMAs sold individually
